COMPANY PROFILE

Al Jehat Company (JATCO) was registered in Dammam in September 1975.

Formed as a specialist surveying and mapping organization, Al Jehat Company has diversified over the past three decades into various disciplines with an emphasis on high technology products and services.

Information Technology, Training and Specialist Manpower Services are now an integral part of the company's business.

Al Jehat Company is active throughout the Middle East employing in excess of **1000** professional and technical staff.

Al Jehat Company operates 6 divisions:

- * Human Resource Division
- * Instrumentation Division
- * Joint Venture Division
- * Information Technology Division
- * Survey Division

MANAGEMENT

The Saudi / British management team has been together since 1980 and throughout this period Al Jehat Company (JATCO) has sustained financial growth alongside expansion of the range of services offered.

SURVEY DIVISION

Al Jehat Company is one of the largest and most technologically advanced **survey and mapping** organizations in the Middle East.

Jatco currently has 45 survey teams plus logistic and office support staff involved in a variety of projects throughout Saudi Arabia

Survey capability extends to all aspects of land, engineering and hydrographic survey.

The range of services offered includes:

- o Topographic Mapping***
- o Engineering Survey***
- o GPS Sales & Support***
- o Digital Data Conversion***
- o Geographic Information Systems***
- o Aerial Survey***
- o Route Survey***
- o GPS Survey***
- o Bathymetric Survey***
- o Facility Management***

The Survey Division utilizes the latest software, hardware and automated mapping techniques in the preparation and presentation of spatial data. GPS and GIS Technologies are available to clients and the Division has the capability for transferring and delivering data in numerous digital formats.

Jatco personnel are qualified to recognized international standards. The General Manager of JATCO is a Fellow of the (UK) Royal Institution of Chartered Surveyors with more than 30 years of survey experience.

Logistic support is available throughout the region. The Company owns a fleet of vehicles, plus mobile offices & accommodation and operates garage facilities with mechanics and technicians available to support remote area projects.

Tariq Al Amoudi Surveying Office (TASO) is a Saudi Licensed Survey Company under the same ownership as Al Jehat Company. TASO is assigned to survey projects which require official certification.

Al Jehat Company are agents for Trimble and Nikon survey equipment (details are included under "Survey Instrument Division").

Current and recent clients of the Survey Division include :

Saudi Aramco	Khafji Joint Operations
Qatar Petroleum	Kuwait Oil Company
Bahrain Survey Directorate	Saudi Ministry of Transport
Saudi Ministry of Defense & Aviation	Royal Commission (Jubail & Yanbu)
Saudi Electricity Company (SEC)	Ballast Nedam Group
Saudi Ministry of Municipal & Rural Affairs	Saudi Mining Company (Ma'aden)
Saudi Iron & Steel (Hadeed)	SASREF
Kemya (Saudi Petrochemical Co.)	Foster wheeler
Worley Petrocon	Flour Arabia Limited
Bechtel	Ralph M. Parsons
Brown & Root	Lucent Technology
Zamil Turbag	Snamprogetti
Saipem	ABV Rock Group
Al Marai	Savola
Costain International	Fugro Suhaimi
Nesma	Sofcon
Dar Al Riyadh	SNC Lavalin Fayez Engineering
Saudi Bin-Laden	Saudi Oger Limited
Al-Oula Development	Abdul Aziz Consortium

TECHNOLOGY DIVISION

Al Jehat Company is representative in Saudi Arabia and Bahrain for **Trimble** survey, Nikon, Spectra Precision, DIGI & construction equipment including GIS & GPS instruments.

Al Jehat Company were appointed Geotronics agents in 1985 and gained 32 years' experience in the sales and support of Geodimeter, Spectra Precision and Zeiss survey equipment. When these companies were acquired by Trimble in 2002 Al Jehat Company became authorized Trimble dealers.

Comprehensive technical support is available throughout Saudi Arabia. Trimble trained specialists are on call to provide demonstrations, seminars and training.

JATCO operates a Trimble Service Center for the maintenance, repair and servicing of Trimble equipment.

The Company holds extensive stock of instruments and spare parts and offers competitive pricing of the following Trimble products:

- R8/R4/R6/ & R7- GNSS Receiver
- S8/S6/S3 Total Station
- VX Total Station
- SPS 700 Total Station
- Trimble M3 GPS Receiver
- Nikon Nibo/ DTM 332
- DINI Digital Levels
- Geo Explorer GIS Data Collectors
- Digi Routers

INFORMATION TECHNOLOGY DIVISION

Since the early eighties Al Jehat Company has acquired extensive I.T. experience and today provides consultancy, systems design and turnkey implementation services

Company capabilities extend from the supply of computer consultants to the performance of turnkey Information Technology projects.

Specific areas of expertise include:

- o Development of new systems
- o Conversion of legacy systems
- o Production support
- o Applications enhancements
- o Training
- o Digitizing
- o Applications maintenance
- o Consultancy
- o Quality assurance
- o ERP Solutions
- o GIS
- o Data conversion

Al Jehat Company retains several long term contracts with Saudi Aramco for the supply of I.T. services. Other clients of the Division include Saudi Basic Industries (SABIC) Group of Companies and Saudi Electric Company (SEC).

Al Jehat Training Institute is Microsoft Certified and works closely with the IT Division on issues concerning the training of Company personnel and Corporate Clients.

HUMAN RESOURCES DIVISION

The Human Resources Division supplies highly qualified technical and professional staff to Middle East clients.

Individual consultants or project teams are available for short and long term secondment.

The Company has wide ranging contracting and consultancy experience in the oil, gas and petrochemical industries, as well as the commercial and financial sectors. At present over 660 personnel are on assignment to clients at various project locations throughout the Middle East.

The Company has contracts with Government Organizations for the provision of Engineers, Teachers and Trainers, Computer Consultants and Communications Experts. JATCO has provided specialist manpower services to the oil industry in general and Saudi Aramco in particular for 30 years.

To service client and in-house requirements the company retains a worldwide network of affiliates and agents in USA, Canada, UK, Australia, Philippines, India, Pakistan & Sri Lanka enabling access to a large databank of qualified and experienced consultants and technicians.

Al Jehat Company also has a well developed Saudization Program. Working with Al Jehat Institute the HR Division has developed training courses and on-the-job schemes to encourage and assist Saudi nationals to enter the workplace. The company currently employs more than 240 Saudi nationals including 70 lady employees.

Current vacancies and application forms are posted on the Company website.

JOINT VENTURE DIVISION

This Division was formed to diversify Company skills and to assist overseas companies establish a presence in Saudi Arabia.

Al Jehat Company has developed the resources and management structure to enter into various forms of business association with foreign partners.

A range of partnership options are available including local sponsorship, branch office representation, agency arrangements or joint venture equity participation.

In addition to administration and support facilities, assistance is available with sales and marketing and project coordination.

Current partners in the region include:

- RPS Energy Ltd. (UK)
- Trimble (USA)
- Chrisol India Ltd. (India)
- IMAR (Ireland)
- Petro Consult (Qatar)
- DSM Geodata (UK)
- Geophysical Services Ltd.(Bahrain)
- MXM Ltd. (Bahrain)
- Zayani & Sons (Bahrain)

Chrisol India Ltd. are Indian Software houses. In association with these companies JATCO offers software solutions and specialist IT services to clients throughout the Middle East.

RPS Energy are a specialist Seismic Interpretation Organization with worldwide experience in the oil industry.

DSM Geodata is a UK survey organization with expertise in Digital Mapping and Geographic Information systems.

TRIMBLE is manufacturer of Global Positioning System (GPS) receivers, precision distance measurement instrumentation and data collection systems. In addition TRIMBLE are the worlds largest and longest established company in the field of laser technology and machine control systems.

Geophysical Services Ltd. (Bahrain) are involved in sub surface investigation and utility mapping. The JATCO / GSL Joint Venture is currently active in UAE, Saudi Arabia and Qatar.

IMAR (Ireland) is a hydrographic organization who offer surveys plus geotechnical, geophysical and environmental engineering
